# SPECIAL PIECES FOR CONTINUOUS FINISHES

With the same texture as our non-slip mosaics, our **Corner and Cove pieces** create a premium finish for your project. They are perfect for finishing off the **corners of steps**, pool edges and transitions between floors and vertical walls.

Made from glass, an environmentally friendly material, the special **Corner and Cove pieces** by **ezarri** make your project both immaculate-looking and safe. The natural, elegant style of your space is extended through edges and half-round trims, thus guaranteeing the perfect composition for your project.

**You will find these special pieces for all the inaugural items in the 50 line.** 10 avant-garde items to put the finishing touch on your project, whether it is made up of 50 mm tiles or 25 mm.

Con la misma textura que los mosaicos antideslizantes, las **piezas Corner y Cove** proporcionan una terminación premium para tu proyecto. Resultan perfectas para rematar las **aristas de escalones**, coronaciones de piscina y transiciones entre pavimentos y paredes verticales.

Fabricadas en un material ecológico como es el vidrio, las piezas especiales **Corner y Cove** de **ezarri** proporcionan unos acabados de cuidada estética, además de seguros. La naturalidad y la elegancia de los espacios continúa en cantos y medias cañas garantizando una composición perfecta del proyecto.

**Las mismas referencias que inauguran la familia 50, las podrás encontrar en estas nuevas piezas especiales.** 10 referencias de vanguardia, con las que rematar los proyectos realizados tanto con fichas de 50mm como de 25mm de lado.

Jouissant de la même texture que les carreaux antidérapants, **les pièces Corner et Cove** offrent une finition de qualité supérieure à votre projet. Elles sont parfaites pour assurer **la finition des marches**, des margelles de piscine et des zones de transition entre les revêtements de sol et les murs verticaux.

Fabriquées dans un matériau écologique tel que le verre, les pièces spéciales **Corner et Cove** d'**ezarri** offrent des finitions qui, outre leur esthétique soignée, sont synonymes de sécurité. Le naturel et l'élégance des espaces se poursuivent jusque sur les bords et les plinthes, garantissant une parfaite composition du projet.

**Les références qui inaugurent la famille 50 sont proposées via ces nouvelles pièces spéciales.** 10 références avant-gardistes permettant d'assurer la finition des projets réalisés avec des pièces de 50 et de 25 mm de côté.

# Exclusive JointPoint® system, a world of benefits.

JointPoint® is an innovative and exclusive new paneling system developed in-house by **ezarri** that guarantees an easy, perfect and homogeneous mosaic installation.

The JointPoint® system is flexible and easy to cut. The technique has been exclusively created in order to provide countless benefits for the installer and sublime results in terms of finishes.

For more information please visit  
Para más información visita  
Pour plus de renseignements visitez  
**www.ezarri.com**

www.ezarri.com/en/jointpoint

## Maximum grip surface

**92%**

92% of the mosaic's surface is free for applying the adhesive. Durability guarantee.

El 92% de la superficie del mosaico queda libre para la aplicación de la cola. Garantía de durabilidad.

92 % de la surface de la mosaïque reste libre pour l'application de la colle. Garantie de durabilité

## Easy installation

25% time saving.

Ahorro de un 25% del tiempo.

Pose facile. Gain de temps de 25 %

## Resistant to moisture

Does not expand or contract like mesh or paper-based panelling systems.

No tiene dilataciones ni contracciones ni roturas como los sistemas de empanelado en malla o papel.

Pas de dilatations, de contractions, ni de déchirures comme avec les systèmes d'assemblage sur trame nylon ou sur papier.

## Even the smallest area is homogeneous and controlled

# Exclusivo sistema JointPoint®, un mundo de ventajas.

JointPoint® es un novedoso y exclusivo sistema de empanelado desarrollado propiamente por ezarri y que garantiza una fácil, perfecta y homogénea instalación del mosaico.

El sistema JointPoint® es flexible y sencillo de cortar. La técnica ha sido creada de forma exclusiva en vista a aportar infinidad de ventajas para el instalador y ofrecer resultados sublimes en el acabado de los proyectos.

*Máxima superficie de agarre*

*Facilidad de colocación*

*Insensible a la humedad*

*El punto más pequeño, homogéneo y controlado*

# Système exclusif JointPoint®, tout un monde d'avantages.

JointPoint® est un système de fixation des mosaïques novateur et exclusif développé par **ezarri**, qui garantit une installation simple, parfaite et homogène des mosaïques.

Le système JointPoint® est flexible et facile à découper. Cette technique a été créée exclusivement afin de fournir une multitude d'avantages à l'installateur et d'offrir des résultats spectaculaires lors de la finition des projets.

*Surface d'adhérence maximale*

*Simple à poser*

*Résistant à l'humidité*

*Le point le plus petit, homogène et contrôlé*

# ezarri, an Eco-Friendly company.

Our commitment to sustainability is reflected in each and every one of our projects, from start to finish. That is why absolutely all the glass used by **ezarri** is 100% recycled.

Our responsibility to protect the environment has motivated us to work to obtain three certifications that accredit our respect and care for the planet. This commitment to nature is a key criteria for **ezarri** and one of the essential elements of the company's philosophy.

**100% recycled glass**  
Over 96% of the end product is from recycled glass

**Product Environmental Certification ISO 14021**

**Environmental Management Certification ISO 14001**

**Company associated with the Green Building Council**

# ezarri, an Eco-Friendly company.

Nuestro compromiso por la sostenibilidad queda reflejado en todos y cada uno de nuestros proyectos, desde su inicio hasta su fin. Por eso, absolutamente todo el vidrio utilizado por **ezarri** es 100% reciclado.

Nuestra responsabilidad por el cuidado del entorno nos ha llevado a trabajar hasta alcanzar tres certificaciones que acreditan nuestro respeto y cuidado del planeta. Este pacto con la naturaleza es un criterio clave de **ezarri**, tanto es así, que es uno de los puntos destacados de la filosofía de empresa.

*Vidrio 100% reciclado. Más del 96% del producto final es de vidrio reciclado.*

*Certificación Medioambiental de producto ISO 14021*

*Certificación de Gestión Medioambiental ISO 14001*

*Empresa asociada al Green Building Council*

# ezarri, an Eco-Friendly company.

Notre engagement en faveur du développement durable se reflète dans chacun de nos projets, du début à la fin. C'est pourquoi tout le verre utilisé par **ezarri** est recyclé à 100 %.

Nos responsabilités en matière de protection de l'environnement nous ont amenés à travailler jusqu'à obtenir trois certifications qui attestent du respect et du soin que nous portons à la planète. Ce pacte avec la nature est un critère clé chez **ezarri**, au point qu'il est l'un des points forts de la philosophie de l'entreprise.

*100 % verre recyclé. Plus de 96 % du produit final provient de verre recyclé*

*Certification Environnementale de Produit ISO 14021*

*Certification de Gestion Environnementale ISO 14001*

*Entreprise associée au Green Building Council*

## Installation · Instalación · Installation

1.

Extender el adhesivo con una llana dentada de 6mm de manera homogénea.

Spread the adhesive in a uniform manner using a 6mm notched trowel.

Étendre l'adhésif de façon homogène avec une truelle dentée de 6mm.

2.

Colocar los paneles con el sistema de puntos JointPoint® y aplicarlos sobre la superficie.

Position the panels with the JointPoint® system and apply to the surface.

Placer les panneaux avec le système de points JointPoint® et les appliquer sur la surface.

4.

Aplicar la junta con la llana de goma blanda, quitando el exceso de pasta.

Apply the grouting mortar using the soft rubber trowel, removing any excess paste.

Appliquer le joint avec la truelle en caoutchouc mou, puis retirer ensuite les restes de pâte.

3.

Corregir la alineación de los paneles con una llana de goma.

Correct the alignment of the panels using a rubber trowel.

Corriger l'alignement des panneaux avec une truelle en caoutchouc.

5.

Limpiar el mosaico con agua con la ayuda de una llana con esponja.

Clean the mosaic using water and a sponge trowel.

Nettoyer la mosaïque avec de l'eau à l'aide d'une truelle munie d'une éponge.

6.

Finalmente limpiar con un finalizador de obra.

Lastly, clean using a finishing product.

Finalement, nettoyer avec un finisseur.

Preparing the support. The support should be a smooth, even surface which should be clean, stable and have a level of surface moisture below 3%.

Choosing the most appropriate adhesive: For concrete surfaces, **ezarri** recommends using an adhesive with at least C2TE specifications for concrete surfaces. For other surfaces, please seek advice.

Choosing the most appropriate grouting mortar: At **ezarri** we recommend the use of RG-type epoxy grouting mortars.

For a more detailed explanation of the installation process, please check our website ([www.ezarri.com](http://www.ezarri.com)), where you will find a file detailing all the steps to be followed and products to be used.

**ezarri** has an **Installation Customer Service** to answer any questions about which bonding and grout materials to use, tools, and where to get recommendations for optimal installation.

Preparación del soporte: El soporte debe ser una superficie lisa y sin imperfecciones y además debe estar limpio, estable y tener un grado de humedad inferior al 3%.

Elección del adhesivo más adecuado: **ezarri** recomienda la utilización de un adhesivo con características mínimas C2TE, para superficies de hormigón. Para otras superficies se ruega consultar.

Elección de la junta más adecuada: En **ezarri** recomendamos la utilización de juntas epóxicas tipo RG.

Para tener una explicación mas exhaustiva del proceso de instalación puede dirigirse a nuestra página web ([www.ezarri.com](http://www.ezarri.com)), donde encontrará un dossier con todos los pasos a realizar y productos a utilizar.

**ezarri** dispone de un **Servicio de Atención para la Colocación**, en el que poder resolver cualquier tipo de duda respecto a qué materiales de agarre y junta utilizar, sobre herramientas y donde poder obtener recomendaciones para una óptima colocación.

Préparation du support: Le support doit présenter une surface lisse et sans imperfections. Il doit également être propre, stable et contenir un degré d'humidité inférieur à 3%.

Choix de l'adhésif correct: **ezarri** conseille d'utiliser un adhésif avec des caractéristiques minimales C2TE pour des surfaces en béton. Pour d'autres surfaces, veuillez nous contacter.

Choix du joint correct: Chez **ezarri**, nous conseillons d'utiliser des joints époxy du type RG.

Si vous souhaitez recevoir davantage d'information concernant la séquence d'installation, vous pouvez visiter notre site ([www.ezarri.com](http://www.ezarri.com)), où vous trouverez un dossier avec tous les pas à suivre et les produits à utiliser.

**ezarri** dispose d'un **service d'assistance** pour la pose qui est capable de résoudre tout type de doute concernant les matériaux de fixation, les joints et les outils à utiliser, et qui offre également des recommandations pour une pose optimale.

## JUNTAS EPOXY

EPOXY JOINTS · JOINTS ÉPOXY

**ezarri** considers joints to be an essential element within its colorful designs. The aesthetic component of the joint used is very important and when combined with the **ezarri** mosaic tile ranges can give surprising results. By combining different colored tiles and joints we have been able to develop a new range of color schemes to offer our clients.

In technical terms, **ezarri** recommends the use of epoxy joints mortars. Apart from offering a wide range of colors and effects, such joints have excellent technical specifications; they are damp-resistant, water-repellant and have great durability. Moreover, this type of joint does not absorb stains, offering total cleanliness and hygiene.

The use of epoxy joints is linked to the use of specific tools and finishing products, both of which are also supplied by **ezarri**. We recommend you use these specific tools and products in order to ensure a perfect finish and results.

**ezarri** hace de las juntas un elemento esencial en sus propuestas de colorido. El componente estético de las juntas es importantísimo y conjugándolo con las colecciones de mosaico **ezarri**, dan unos resultados sorprendentes. La combinación de colores entre mosaico y junta nos ha permitido desarrollar una propuesta cromática que ponemos a disposición de nuestros clientes.

Técnicamente hablando, **ezarri** aconseja la utilización de juntas epóxicas. Además de contar con una amplia gama de colores y efectos, estas juntas tienen unas características técnicas excelentes; son insensibles a la humedad, repelen el agua y ofrecen una gran durabilidad. Además, las manchas no penetran en la junta por lo que la limpieza e higiene son totales.

La utilización de juntas epóxicas va vinculada a la utilización tanto de herramientas específicas, como de productos de finalización de obra. Ambos son suministrados también por **ezarri**. Recomendamos la utilización de estas herramientas y productos específicos para que la finalización y el resultado de la obra sean los idóneos.

Pour **ezarri**, les joints sont un élément essentiel dans ses propositions de coloris. Le composant esthétique des joints est déterminant et leur mélange avec les collections de mosaïque **ezarri** fournit des résultats réellement surprenants. La combinaison des couleurs de la mosaïque et du joint nous a permis de développer une offre chromatique que nous mettons à la disposition de nos clients.

D'un point de vue technique, **ezarri** recommande d'utiliser des joints époxy. Leur gamme de couleurs et d'effets est très large et ils possèdent d'excellentes caractéristiques techniques : ils sont insensibles à l'humidité, repoussent l'eau et fournissent une grande durabilité. D'autre part, les taches ne pénètrent pas dans le joint, ce qui permet un nettoyage et une hygiène absolument parfaits.

La mise en place de joints époxy implique l'utilisation d'outils spécifiques et de produits finisseurs. L'ensemble est fourni par **ezarri**. Nous conseillons vivement d'utiliser tous ces éléments pour que les finitions et le résultat de l'ouvrage soient optimaux.
